

My name is Layne Watkins and I am interested in a full-time position at your whitetail ranch. I have been interested in working in the deer farming industry since the beginning of high school and I eventually want to own and run my own deer farm somewhere down the line, but at this point I'm just looking forward to learning and spending as much time in the outdoors with such amazing animals. I am about to graduate from Kansas State University with a degree in Wildlife and Outdoor Enterprise Management.

I am an avid hunter and love the outdoors. I got experience in the deer farming industry last summer while interning at M3 Whitetails. I learned a lot about animal husbandry and have picked up numerous new skills like bottle feeding and diagnosing deer sicknesses.

I feel like I am a very hard worker and love to get my hands dirty in order to get the job done. I am also willing and excited to learn all that I can. I look forward to hearing from you and talking more about this job opportunity and the deer farming industry.

Thanks,

Layne Watkins
